# Introduction

## Checklist

### Family CURCULIONIDAE

Agabus bipustulatus .....

### Family DYTISCIDAE

Agabus didymus .....

Agabus sturmii.....

Agriotes sputator .....

Anacaena globulus .....

Anacaena limbata agg.....

Anthobium atrocephalum.....

Aromia moschata.....

Broscus cephalotes .....

Colymbetes fuscus .....

Copelatus haemorrhoidalis.....

Dytiscus marginalis.....

Graptodytes granularis .....

Graptodytes pictus.....

Haliphus flavicollis .....

Haliphus heydeni .....

Haliphus immaculatus.....

Haliphus lineatocollis .....

Haliphus obliquus .....

Haliphus ruficollis.....

Helophorus brevipalpis .....

Helophorus nubilus.....

Hoplia philanthus .....

Hydaticus transversalis.....

Hydraena riparia .....

Hydrobius fuscipes .....

Hydroporus angustatus .....

Hydroporus erythrocephalus .....

Hydroporus memnonius .....

Hydroporus palustris.....

### Family CARABIDAE

Hydroporus planus .....

Hydroporus pubescens.....

Hygrotus inaequalis .....

Hygrotus versicolor.....

Ilybius ater .....	
Laccobius bipunctatus .....	
Laccophilus hyalinus .....	
Laccophilus minutus .....	
Limnebius papposus.....	
Ochthebius minimus .....	
Peltodytes caesus .....	
Porhydrus lineatus.....	
Protapion apricans.....	

3 families and 53 taxa listed from 0 record.
